SUMMARY

Software Engineer with 3+ years of experience building scalable full-stack web applications using Angular, .NET Core and SQL Server. Experienced in developing real-time systems with SignalR, secure REST APIs with JWT authentication, and maintainable applications following clean architecture principles.

SKILLS

Languages & Frameworks: C#, .NET Core, ASP.NET Core, MVC, Web API, Angular, TypeScript, JavaScript

Frontend: HTML5, CSS3, Tailwind CSS, Angular Material

Database: SQL Server

Tools & Technologies: Azure, Redis, Git, CI/CD, SignalR

Concepts: OOP, Clean Architecture, Microservices, REST APIs, JWT Authentication, SSO, Agile/Scrum

Testing: Unit Testing

EXPERIENCE

Software Engineering Analyst - 2

Feb 2025 – July 2026

K12 Insight (Onflo), Bandra (Hybrid)

- Developed and maintained scalable full-stack web applications using Angular, .NET Core Web API, C#, and SQL Server.
- Worked on the Chatbot module, implemented real-time communication between agent and user using SignalR, enabling seamless data transfer and live updates between the client and server.
- Designed and developed RESTful APIs, implementing business logic, validation, and database operations.
- Implemented JWT-based authentication and authorization to secure application resources and API access.
- Developed frontend features using Angular, TypeScript, RxJS, Angular Material, and Tailwind CSS.
- Implemented unit tests to validate application logic and API functionality, improving code reliability and reducing regression issues.
- Investigated and resolved production issues, performing debugging and root-cause analysis to improve application stability.

Software Engineering Analyst - 1

Jun 2023 – Jan 2025

ZI Systech, Bandra (Hybrid)

- Worked as a Full Stack Developer using Angular, .NET Core/MVC, and SQL Server to build scalable enterprise applications.
- Migrated legacy applications to modern .NET Core architecture, improving performance and reducing technical debt.
- Implemented Single Sign-On (SSO) using Google and Azure, enhancing authentication security and user convenience.
- Investigated and resolved application and production issues to maintain system stability.
- Collaborated with QA and development teams throughout development, testing, debugging, code reviews and deployment.

PROJECTS

LiveChatApp Powered by AI | .NET Core Web API, SQL Server, Angular, SignalR

- Built a multi-tenant real-time communication platform for corporate environments.
- Implemented real-time chat system using SignalR with AI-powered support features.
- Designed system using Clean Architecture ensuring scalability and data isolation.
- Integrated JWT authentication and secure API handling.
- GitHub: Frontend | Backend

EDUCATION

Bachelor of Engineering (B.E)

Graduated: 2023

Shree L.R Tiwari College of Engineering, Mumbai University | CGPA: 9.32
